SMS LEAD CAPTURE - MANAGED INTERNET MARKETING

internet marketing campaign brochure

The first step of the marketing campaign is to get visitors to your website.

We do this thru 2 primary mediums.

- **Pay Per Click Search Ads.**

(People searching for real estate in a specific area)

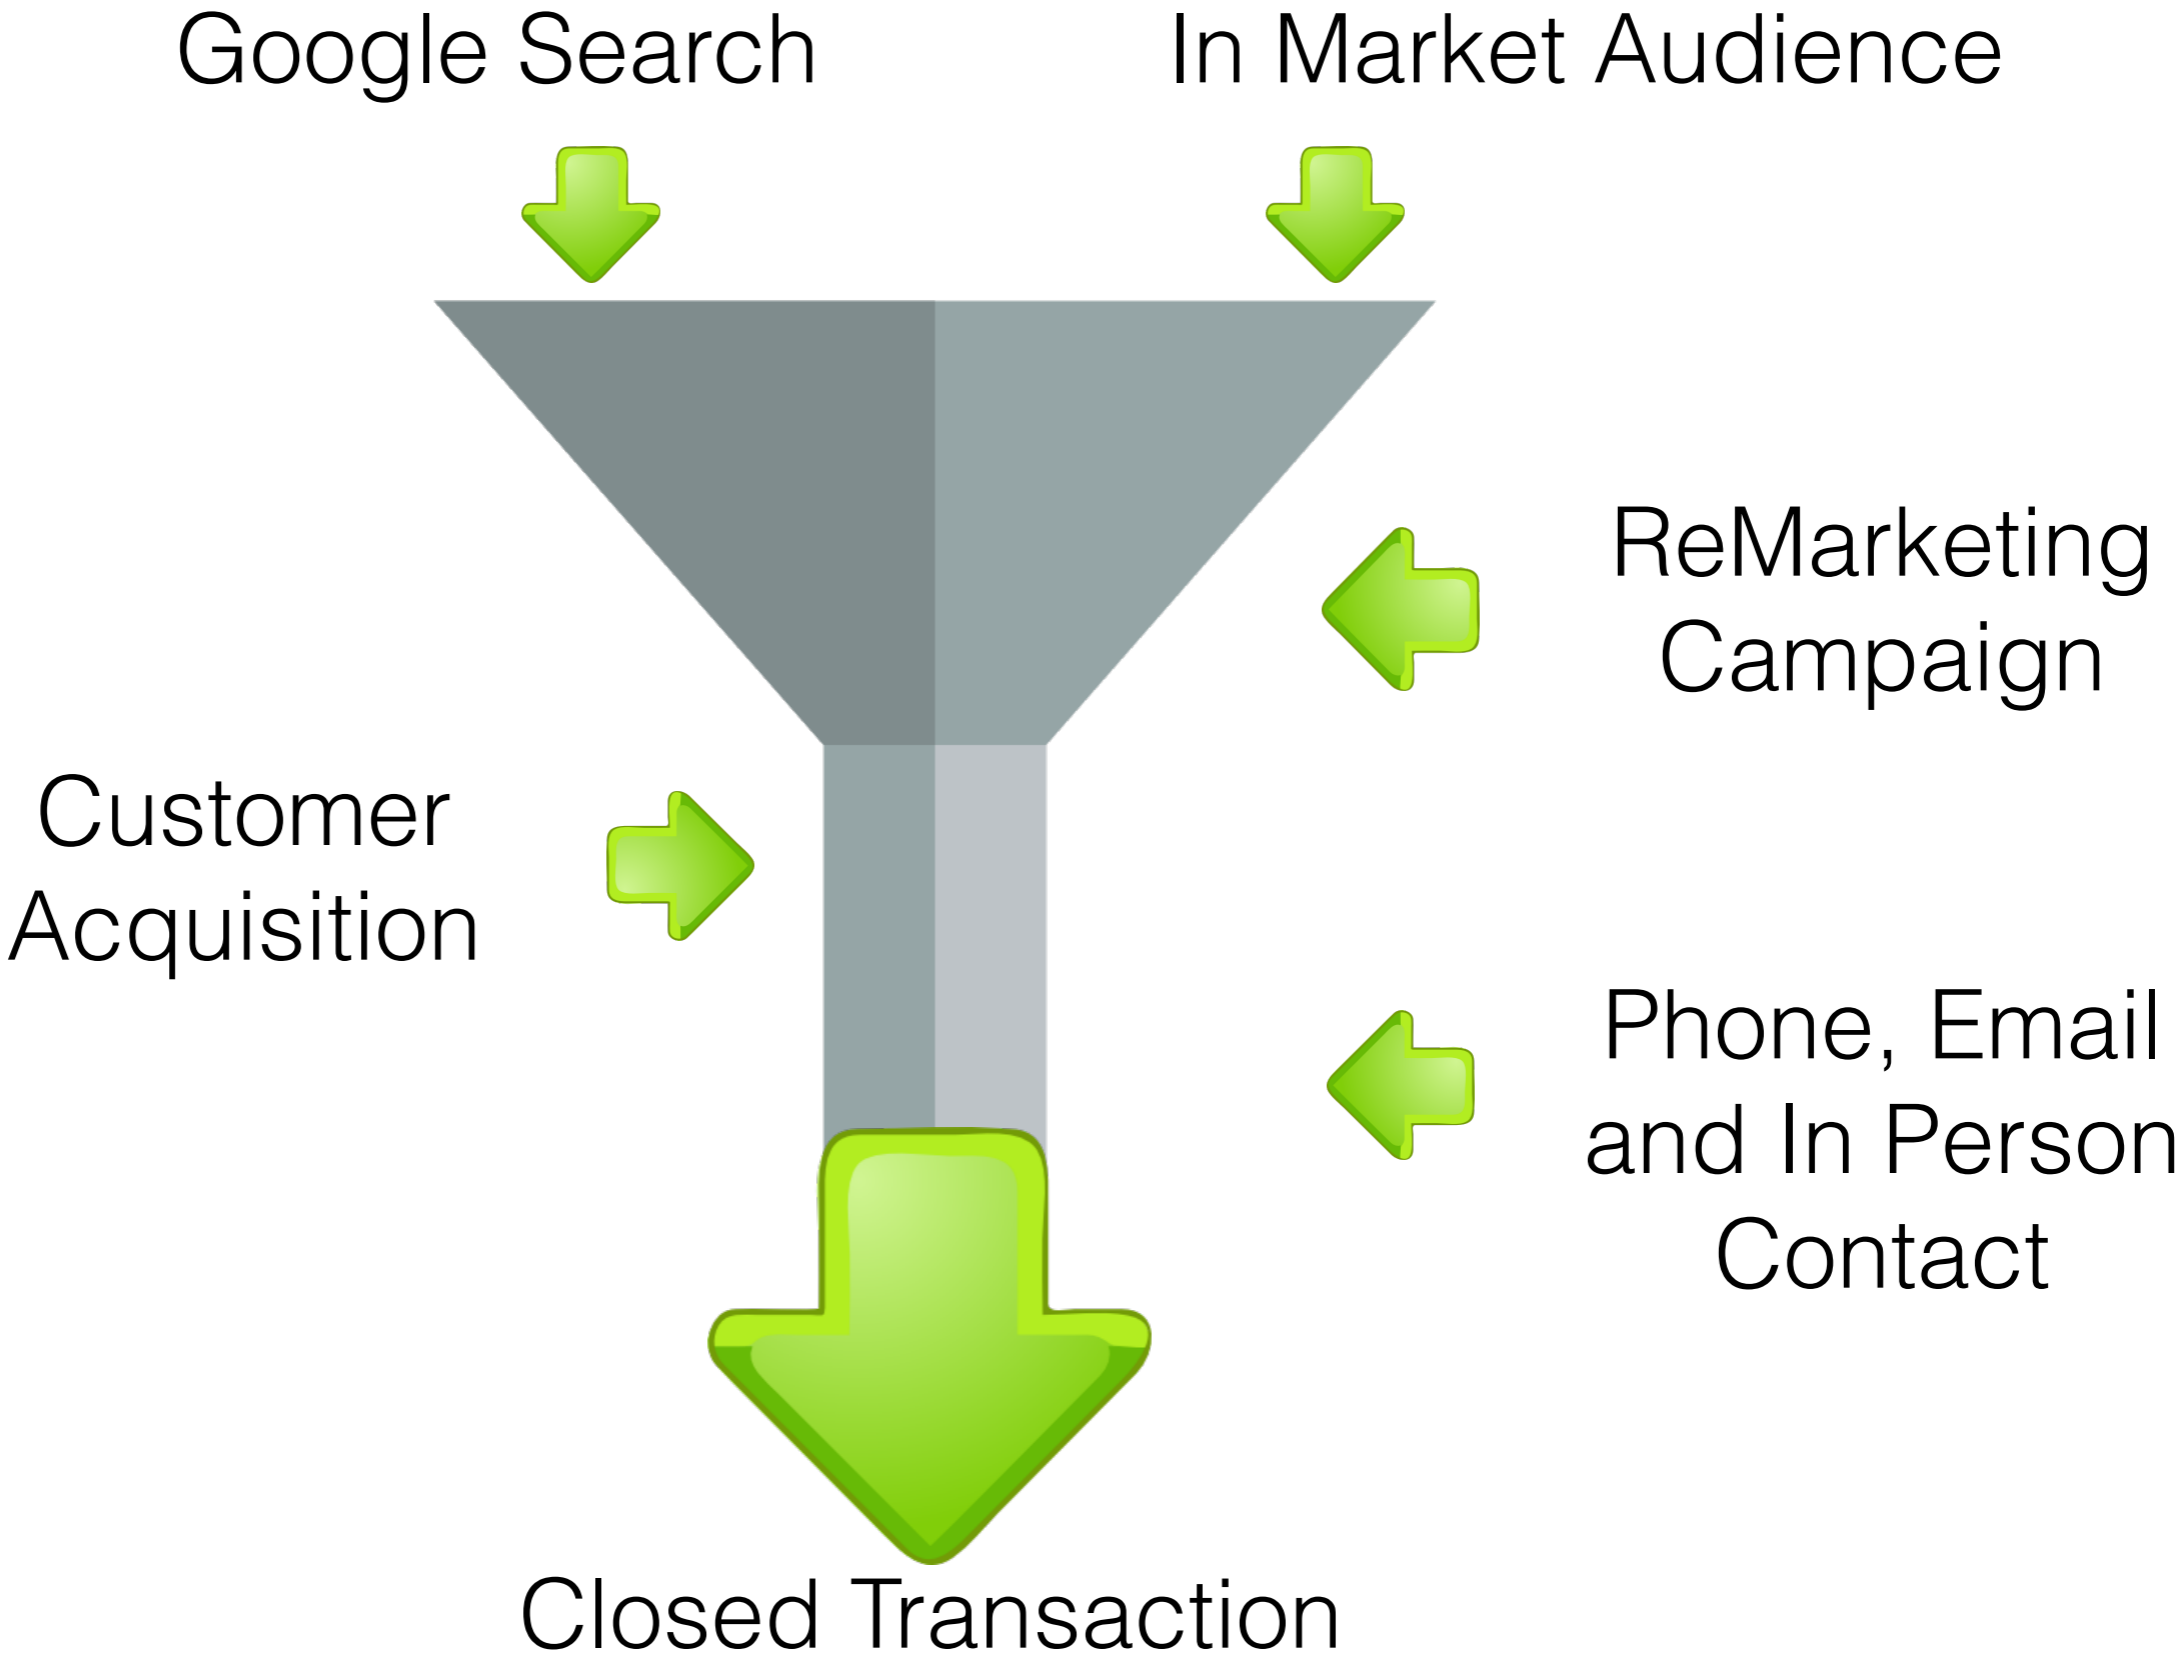

- **In Market Audiences**

(Data Aggregators already know who is search for and clicking on Real Estate websites. We target them)

Once you deliver prospects to your website, we drip advertise them for the next 180 days, in a RE-Marketing campaign.

Your ads get served to people who have visited your website, who see your ads for the next 180 days. Thus branding you as a marketing genius.
